JOURNAL OF THE FRANKLIN INSTITUTE

INDEX TO VOLUME 317

January – June 1984

SUBJECT INDEX

Papers are listed under subject headings with first author's name in parentheses. All authors are listed with titles of their papers in alphabetical order in the Author Index.

A

Adaptive equalization (Wong), 105
Adaptive sine rejection (Wulich), 135
Automatic control (Therapos), 359

B

Bessel functions (Daniel), 159
Bilinear systems (Liu), 373
Bond graphs (Karnopp), 227
Bond graphs (Margolis), 309
Bond graph and matroid theory (Gattinger), 1

C

Caustics (Ioakimidis), 27
Chaos in information processing (Nicolis), 289
Chebyshev polynomials (Liu), 373
Circuit theory (Reza), 57
Communication in the presence of jamming (Başar), 73
Control systems (Therapos), 359
Convergence criteria for numerical methods (Chase), 89
Cracks in fracture mechanics (Ioakimidis), 27

D

Data transmission (Saha), 183

E

Efficiency of automotive CVTs (Beachley), 235
Electromagnetic field diffusion (Rochon), 333
Electromechanical actuators (Karnopp), 227
Equalization (Saha), 183

F

Fractional sampling (Saha), 183

G

Gaussian channels (Başar), 73
Gaussian processes (Kolodziej), 263
Generalized translation (Hoskins), 323

H

Hypernetworks (Gattinger), 1

I

Information processing (Nicolis), 289
Internal heat generation (Liu), 147
Iterative methods (Chase), 89, 383

J

Jarratt's method (Chase), 383

L

Laguerre equalizer (Wong), 105
Linear network analysis (Svoboda), 213
Linear propulsion machines (Schieber), 171
Linear systems (Hoskins), 323
Linear systems (Reza), 57
Loads acting on a uniform column (Daniel), 159

M

Magnetic levitation (Schieber), 171
Mechanics of plastic flow (Talbert), 275
Metal ring forming (Talbert), 275
Minimax transmission policies (Başar), 73
Minimization methods (Chase), 383
Modal analysis (Margolis), 309
Model reduction (Lin), 117
Model reduction (Therapos), 359

N

Noise variance measurement (Wulich), 135
Nonlinear equations (Chase), 89
Nonlinear filter (Kolodziej), 263

O

One-dimensional discrete systems (Ramachandran), 341
Oscillators (Bhattacharyya), 413

Journal of the Franklin Institute
Vol. 317, No. 6, pp. 441 – 444, June 1984
Pergamon Press Ltd. Printed in Great Britain

P

Parameter estimation (Liu), 373
Parameter variations (Lin), 117
Plastic stress-rate of strain relations (Talbert), 275

Q

Quintic equation (Ioakimidis), 27

R

RC-active oscillators (Bhattacharyya), 413

S

Sampled data filters (Bhattacharyya), 35
Sampling theorem (Hoskins), 323
Schussler's theorem (Ramachandran), 341
Schwarz's lemma (Reza), 57
SC networks (Bhattacharyya), 35
Simulation (Margolis), 309
Singular systems (Paraskevopoulos), 403
Stability test (Ramachandran), 341
State space theory (Svoboda), 213
Superconductivity; type I (Rochon), 333

T

Thermal instability (Liu), 147
Time dependent variable magnitude travelling load problems (Padovan), 7
Transfer functions (Paraskevopoulos), 403
Transient/steady travelling load problems (Padovan), 7
Transmissions; split-path extended range continuously-variable (Beachley), 235

U

Unity gain amplifiers (Bhattacharyya), 35

V

Viscoelasticity theory (Padovan), 7

VOL.
317
1984

AUTHOR INDEX

Full titles are listed only under first authors; all co-authors are cross-referenced. Entries with (BR) are Book Reviews

A

Anscomb, C.: See Beachley, N. H., 235

B

Başar, T.: A bandwidth expanding scheme for communication channels with noiseless feedback in the presence of unknown jamming noise, 73
Başar, T. Ü.: See Başar, T. 73
Beachley, N. H.: Evaluation of split-path extended range continuously-variable transmissions for automotive applications, 235
Bhattacharyya, B. B.: Parasitic tolerant designs of sampled data filters using switched capacitors and unity gain amplifiers, 35
Bhattacharyya, B. B.: A unified approach to the realization of canonic RC-active, single as well as variable, frequency oscillators using operational amplifiers, 413
Brown, D. P.: See Svoboda, J. A., 213
Burrows, C. R.: See Beachley, N. H., 235

C

Chase, H. A.: Alternative convergence criteria for iterative methods of solving nonlinear equations, 89
Chase, H. A.: On convergence criteria for Jarratt's method, 383
Christodoulou, M. A.: See Paraskevopoulos, P. N., 403

D

Daniel, J.: Bessel functions and buckling of the uniform column under combined action due to its own weight and an axial load, 159
Darkani, M. T.: See Bhattacharyya, B. B., 413
Diamessis, J. E.: See Therapos, C.P., 359

G

Gargour, C. S.: See Ramachandran, V., 341
Gattinger, M.: Hypernetworks as tools for modelling multiport systems, 1
Gauthier, N.: See Rochou, P., 333
